

# Give Your Business the Benefits of Cloud Communications

Axxess Networks offers complete cloud communications systems in the form of UCaaS (Unified Communications as a Service), CCaaS (Call Center as a Service), and VCaaS (Video Conferencing as a Service). No matter the communications needs for your business, our cloud communications provide value to your company through a more affordable system that contains features and benefits to help you and your employees give top notch customer service.

## EASY SETUP AND MAINTENANCE

Axxess Networks assists your business with setup and configuration of new devices for your new cloud communications system, ensuring your transition to Axxess Networks is easy and painless. And our customer support doesn't stop there. We will be there for any needs or questions that may arise, from adding on new beneficial features to scaling your phone system up or down.

Additionally, the Axxess Networks platform is contained in the cloud, so it can be accessed from laptop, desktop, and mobile devices, allowing you to maintain business as normal from anywhere!

## EASE OF USE

With Axxess Networks, you'll have access to a whole lineup of amazing features that you can easily integrate with CRM Software, Gmail, MS Teams, and more! Our support team will make sure that you are equipped with the knowledge and training to properly use the features needed to advance your business communications.

## MANAGE YOUR COMMUNICATIONS AT YOUR CONVENIENCE

The Axxess Networks cloud communications solution can save your company both time and resources. The efficiency of a simple dashboard eliminates the costly need for tech specialists or service calls. Plus, the system allows business owners to quickly and easily manage users, locations, and devices from anywhere at any time.

Legacy systems are on their way out, and UCaaS is stepping in! These Hosted PBX solutions are available for all businesses that need more flexibility, reliability, and scalability. With our Hosted Business Phones, all software is in the cloud, making these devices easy to set up, maintain, and even bring on the go!

## **THE FINANCIAL BENEFITS OF CLOUD COMMUNICATIONS**

Cloud communications systems like the Axxess Networks platform can benefit your business financially. Because of their versatility, mobility, flexibility, and reliability, your business will be more efficient than ever, saving you downtime and money. Scaling your phone system is also easier and more affordable with cloud communications than it is with a legacy system.

## **EASY TO AXCESS FROM ANYWHERE**

All of the functions of your Axxess Networks are in the cloud, so your phone system can be accessed from anywhere. With the ability to access via both desktop and mobile, this solution is even more versatile. Change features instantly, or even access work information with your cell while commuting! A Unified Communications platform is the perfect fit for any company wanting flexibility.

## **RELIABLE TECH SUPPORT & TRAINING FROM DAY ONE**

When you choose Axxess Networks, you can trust that we'll be there for you every step of the way. From set-up and installation to training all users and technical support. We treat each and every customer the way we would want to be treated. At Axxess, we want to be your one-stop shop for all your cloud communication needs, no matter your business size!
